

# Adverse Childhood Experiences: Understanding Data and Using it for Action

**Safety 2022**

14TH WORLD CONFERENCE ON INJURY  
PREVENTION & SAFETY PROMOTION

## CONFERENCE WORKSHOP

### HOSTED BY:

U.S. CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC)

<https://www.cdc.gov/violenceprevention/childabuseandneglect/vacs/index.html>

PUBLIC HEALTH WALES, UK, WHO Collaborating Centre on Investment for Health and Well-being

<https://phwwhocc.co.uk/>

**WHEN:** Wednesday, November 30

**WHERE:** WS 4.1 Riverbank Room 2 – 7:00AM – 10:30AM

### WHAT YOU WILL LEARN:

1. Learners will be able to identify pros and cons of using administrative, longitudinal, and cross-sectional data on violence against children
2. Learners will be able to identify links between Adverse Childhood Experiences (ACEs) and social determinants of health
3. Learners will be able to discuss and share strategies for using evidence on violence against children and how to translate it to policy actions

This workshop will be interactive and foster participants' sharing of experiences and knowledge of strategies used to prevent violence against children in a variety of settings.

Special focus will be given on how to transition from data to priority setting, to selecting evidence-based interventions to address violence against children.
